

POD Printing & Ordering

Powered by Sheridan Select™

Print only what you need, when you need it. But with print-on-demand (POD)

powered by Sheridan Select™, that's just the beginning. Our ultra-short run and single-copy journal and book production is versatile and flexible.

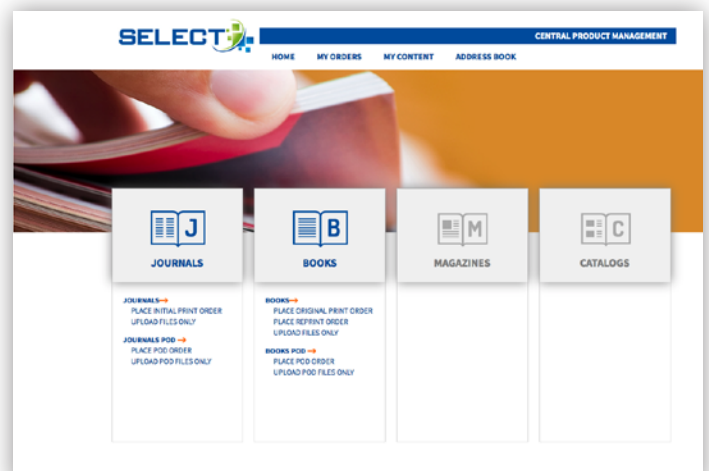

We store your initial print PDF files, allowing immediate automated access to the print files needed to fulfill your POD orders – right down to a single copy. But it needn't only be a solution for previously printed work. First printings are a perfect fit, too, using Sheridan Select's user-friendly self-service interface or powerful data-driven processing options.

One Solution for Every Need:

- Want to automate first printings of journals and books?
- Need to send a small number of issues or books to a conference on short notice?
- Need to fulfill print requests for online-only titles?
- Want to create a custom collection book or journal title?
- Looking for a zero inventory or just-in-time back issue solution?
- Want to integrate your eCommerce storefront or warehouse?

A Multitude of Benefits:

- Increase your speed to market – respond quickly to satisfy market demands
- Free up cash flow by ordering smaller quantities
- Reduce or eliminate back issue warehousing
- Support a book or journal's entire print lifecycle – no issue out of print
- Realize creative business model flexibility – sell first, print second
- Streamline your reprint ordering process and minimize ordering costs
- Harvest backlist titles to capture revenue that might otherwise be lost

Self-service convenience and control. It's as simple as *Click, Upload, Order, Print!*

(continued)

Previously printed titles (digital or offset) can automatically be stored in Sheridan Select and available for POD. Brand new titles to Sheridan Select can easily be uploaded with just a few clicks from within the portal as depicted below.
