Digital Learning Design and Development

Empowering Learners to Succeed

KnowledgeWorks Global Ltd. (KGL) is an innovative, full-service provider of cost-effective learning solutions and immersive experiences. Whether you are a publisher creating rich media elearning courses for your K-12 or higher education portfolio, or an L&D officer developing professional training programs, our multidisciplinary team builds engaging, interactive, and accessible solutions that inspire learners.

Our team of professionals has long worked with publishers, schools, and universities to create digital learning portfolios for a wide variety of subjects and grade levels. Proficient in visual, technical, and instructional systems design, we can help you deliver stimulating and effective learning for student success.
