KGL
KnowledgeWorks Global Ltd.
CJK GROUP

The leading provider of editorial, production, and online hosting services

Editorial & Peer Review Services

Improve your Journal with Exceptional Editorial Office and Peer Review Support

Our acquisition of **Origin Editorial** merges our complementary expertise, technology, and workforce to enhance editorial and peer review services for the professional publishing community. Together, KGL and Origin's global team ensures outstanding quality and efficiency. With decades of experience across hundreds of journals, we are committed to providing the best service to your editors, authors, and reviewers.

Peer Review Management
- Focus on speed to ensure author satisfaction while ensuring quality that advances research communication
- Prompt and efficient handling of new and revised submission checks
- Responsive management of editor, author, and reviewer correspondence
- Recommendation and implementation of industry-leading workflow best-practices to provide optimal author, reviewer, and editor experiences and editorial office efficiency
- Management of special/themed issues, supplements, and invited content
- Platform expertise across ScholarOne, Editorial Manager, eJournal Press, and more

Research Integrity
- Checks for submission of all due statements
- Screening for research integrity issues and potential papermill activity
- Enforcement of ethical criteria according to journal and industry guidelines

Scientific/Developmental Editing
- Evaluation of manuscript structure, content, and organization
- Enhancement of clarity, coherence, and impact of writing
- Identification of inconsistencies and/or unsupported statements
- Feedback on style, tone, and language usage to enhance readability

Subject Editor Service
- PhD- and master's-level subject matter experts across a broad range of disciplines including science, technology, medicine, engineering, social science and humanities
- Triage of new submissions for scope, soundness, and language
- Reviewer selection, both from within the journal database and from external sources
- Assessment of reviews for completeness, readability, tone, and ethics
- Prospective author research and outreach to support journal growth
